

# SHOW RABBIT

## ROWE BERMUDEZ 50/50 OMEGA HIGH FIBER SHOW RABBIT PELLET

Complete Feed for Show Rabbits.

### GUARANTEED ANALYSIS

Crude Protein, Minimum .....	15.50%
Lysine, Minimum.....	.80%
Methionine, Minimum.....	.22%
Crude Fat, Minimum.....	3.25%
Crude Fiber, Minimum.....	19.75%
Crude Fiber, Maximum.....	24.75%
Calcium (Ca), Minimum.....	0.60%
Calcium (Ca), Maximum.....	1.10%
Phosphorus (P), Minimum.....	0.45%
Salt (NaCl), Minimum.....	0.25%
Salt (NaCl), Maximum.....	0.75%
Vitamin A, Minimum.....	2,500 IU/lb
Vitamin D3, Minimum.....	495 IU/lb
Vitamin E, Minimum.....	40 IU/lb
Live Yeast Cell Count Min.....	20,000 Billion CFU/g
Total Bacteria Minimum.....	1.10 X 10 <sup>12</sup> CFU/LB
* Bacillus licheniformis, Bacillus Subtilis	

### INGREDIENTS

Dehydrated Alfalfa Meal, Wheat Middlings, Soybean Hulls, Dehulled Soybean Meal, Soybean Oil, Stabilized Milled Flaxseed, Salt, Calcium Carbonate, Calcium Phosphate, Dried Saccharomyces Cerevisiae Fermentation Product, Selenium Yeast, Copper Sulfate, Dried Bacillus Licheniform Fermentation Product, Dried Bacillus Sub Fermentation Product, Magnesium Oxide, Vitamin E Supplement, Vitamin A Supplement, Niacin Supplement, Vitamin D3 Supplement, Zinc Sulfate, Ferrous Sulfate, Yucca Schidigera Extract, Manganous Oxide, Selenium Yeast, Cobalt Carbonate, Choline Chloride, Ethylenediamine Dihydriodide, Riboflavin, Vitamin B12 Supplement, Pyridoxine Hydrochloride, and d-Calcium Pantothenate.

### FEEDING DIRECTIONS

This pellet should be fed free choice to maintain animals. This product is a complete feed for all classes of Rabbits. Feed requirements will vary depending on body weight, environment, housing and stage of production.

- Non-lactating adult rabbits should be hand fed approximately 1/2 ounce per pound of body weight, increased or decreased depending on condition desired.
- Nursing does and litters should be fed free choice. Nursing does and their litters will consume 1 to 3 ounces per pound of bodyweight per day. Gradually increase the amount fed from kindling so at the time the litter is one week old the doe is consuming all of the feed she will eat.
- Fryers will consume an average of 4 ounces per day during the period from weaning to market. Free choice clean fresh water should be available for animals at all times.

### FEATURES & NUTRITIONAL BENEFITS

- ♦ **50-50 Blend** - To meet the optimal amount of energy , fiber and condition needed for smaller breeds with a 50/50 blend of our previous 15 Original High Fiber and 16-18 Omega / Amino Pellet.
- ♦ **15.5% Protein** - lower protein for the breeds that utilize protein more effectively.
- ♦ **High levels of Alfalfa Meal** - see and smell the difference compared to other major brands
- ♦ **Omega -3 Fatty Acids** - for improved ratio of Omega-6 to Omega-3 fatty acids for healthy skin and coat condition
- ♦ **Unique Probiotics** - helps establish and maintain beneficial intestinal bacteria for your rabbit while stimulating natural and healthy digestion by reinforcing and enhancing the animal's natural defenses against harmful bacteria
- ♦ **Multi-Strain Probiotic and Added Folic Acid** - to support reproductive health and the performance of pregnant and lactating does
- ♦ **Live Cell Yeast** - for improved feed intake and nutrient digestibility
- ♦ **Chelated Trace minerals** - along with Organic Selenium Yeast for higher digestibility of nutrients and improved fertility
- ♦ **Higher than normal levels of B-Complexes** - for health and production benefits
- ♦ **Guaranteed Levels of Amino Acids** - to improve levels and ratios of essential amino acids and increased protein equivalency dedicated to improved milk production, feed conversion, muscle development, rate of gain and fur enhancement
- ♦ **Added Yucca Schidigera Extract** - for reduction of ammonia levels
- ♦ **High Quality Fiber** - along with other proven nutrients to maintain gut health, stimulate gut motility and reduce fur chewing. Low fiber high starch diets result in gut hypomotility, reduced cecotrope formation and prolonged retention time in the hindgut which often results in enteritis. Enteritis is a primary gastrointestinal disorder and often results in diarrhea.
- ♦ **Fixed Formula** - all Rowe formulations maintain the same ingredients in the same percentages continuously
- ♦ **Rowe Rabbit Formulations** contain no corn, high levels of fiber and additional nutrients to reduce the incidence of
